Thank you, Tom: on the 23rd I will return with the agreement signed by me, probably the same text you sent me, we will just adjust some particulars.

I got rid of the European big clicense I had to sign. I made a masterpiece making them go voluntarily...I will explain personally.

About the commercial licensees: Cherokee will direct them , I made up a very good organization that can be useful.

Enjoy Paris!

Warmest Regards,

Andrea

Ogg: Re: Andrea Rossi

Good to hear from you. I am in France, but I would prefer to be in Bologna right now talking business, that's for sure.

I am glad JT Vaughn was able to come to your conference. I have not seen the online reports but will try to get an internet connection to do so.

I look forward to hearing more and to seeing you when you return. We look forward to the growth and development of your great technology.

Thomas F Darden

**Subject:** Andrea Rossi

Dear Tom:

I am back from Zurich.

Before contacting your attorneys we want to complete the study of the document you sent . I want to tell you that so far we have not changes to make. It is good.

For this reason I have put on hold everything else and I am downplaying all the talks here.

I explained well to John in Zurich what I am doing.

On the 22nd I will be in Miami, so that we could make a meeting immediately after to initial a final draft.

The first plant could be put in Africa to desalinate water: we could put it there to work for free, making good use of the millions of units that could be sold after that. We have a new technology to desalinate very cheap using the 1 MW E-Cat.

Warmest Regards,

Andrea

p.s. did you see Zurich on the Internet?
