Goodmorning,

as usual, you can find the January invoice 2016 attached to this mail.

In according to the agreements made with Mr. Tom, my contract to monitor E-cat plant in Miami is set to expire on 31 March 2,016.

Do you forecast to use me for future developments elsewhere or I must be free and look forward to another company?

I would have the best pleasure to continue working with you to the evolution of the E-cat in America.

Best regards
