AWESOME!! I really hope it works out...I think it could turn into a good thing for you!!!
(Steve met Dr. Rossi there on Thursday to insure the building.) Rossi wouldn't even tell him what they are doing there?? So I had Hank explain it to him! (Not sure why he wouldn't tell Steve as he insures all his properties?)

You are such a great person Jim!! The form should be returned with a copy of your driver's license! I will ask Jason when I speak with him (later today) whose attention it should go to at the facility in Okeechobee!

Regarding the spelling error, that is just so typical!! I could tell you so many stories!!!!!!!

Sincerely,

Colette K. Sauer

I start at Dr Rossi's plant on Oct 1.

I just printed the application to visit Jason. There is a gross spelling error on the second page (Spanish). It's even in the title line!! They spelled the word for application (aplicacion) APLICAIION!! Unbelievable...

What do I do with this? It says "After completing this form mail to (and it's left blank!!). It also says "Continue on the attached sheet if necessary for any item", but the attached sheet is the Spanish version of the same sheet. Unbelievable people that are in charge. They must be part of rick scott's family.
